

We are excited to announce that we will begin using brightwheel to enable you to check your children in and out of our program! 🎉

This quick and easy system uses a QR code and your cell phone to track your child's attendance. The QR code will be posted at our entrance or by each room everyday to enable you to check your student(s) in and out.

1. Open the brightwheel mobile app on your mobile device
2. Click **Check-in/out** on the main page of the app
3. Scan the QR code posted by the entrance/room from the app (**note:** the camera app on your mobile device cannot scan the QR code)
4. Select your student(s) > Tap **Check-in/out**
5. Enter your 4-digit check-in code

Let us know if you have any questions!
